

User Story Template

kickoff.pmi.org

Project Name: AI Career Path Navigator
Project Manager: Raveeha Mohsin

How To Use This Worksheet:

A user story describes the type of user, what they want, and why.

Create and capture user stories in a specific format:

“As a... I want... so that...”.

User Story ID	As a... (type of user)	I want to... (user desire/task)	So I can... (achieve a goal)
1	 Student	Receive personalized career recommendations based on my skills and interests	choose a career path that aligns with my strengths and aspirations.
2	 Student	Track my progress on learning resources and career milestones	Ensure I am developing the right skills for my chosen career
3	 Student	Ensure I am developing the right skills for my chosen career	Improve my resume and increase my chances of landing a job
4	 Student	Connect with a counselor and schedule a career guidance session	Get expert advice and insights about my career options
5	 Student	Receive job and internship recommendations that align with my career path	Apply for relevant opportunities and gain experience
6	 Student	Access a chatbot for quick career-related queries	Get instant answers without waiting for human assistance
7	 Student	Set up my profile with academic details and interests	Receive personalized career recommendations
8	 Counselor	View student profiles and progress reports	Provide more personalized career guidance
9	 Counselor	Schedule and manage one-on-one counseling sessions	Help students with their career decisions
10	 Counselor	Receive notifications when a student books a session	Stay informed and manage my schedule effectively
11	 Counselor	Provide feedback and career planning resources to students	Help students improve and refine their career choices
12	 Counselor	Track student progress through a graphical dashboard	Identify students who need more guidance
13	 Admin	Manage student and counselor registrations	Ensure only authorized users access the platform
14	 Admin	View graphical analytics of platform usage	Monitor the effectiveness of the system

15		Admin	Oversee student-counselor interactions	Ensure smooth communication and guidance
16		Admin	Oversee system configurations and maintain platform stability	Ensure CareerTrack AI functions efficiently for all users
17		Admin	Search for student profiles based on skills	Identify potential hires efficiently
